KiCA Jet Fan Ultra Specification

Model	**KiCAJFM**
Features	**1. Brand-New Mecha Aesthetic, Creating Futuristic Technology Design** **2. 48m/s Powerful Airflow with 185g High Thrust.** **3. Compact and Lightweight, Easy to Carry** **4. Elegant Aluminum Alloy Body, Weighs Only 327g** **5. Stepless Speed Control, Press to Turbo Speed** **6. Includes Multiple Magnetic Nozzles** **7. Front and Rear LED lights** **8. 18W Fast Charging, No Waiting for The Wind** **9. Strong Dust Blowing, Your Cleaning Assistant** **10. Multi-Functional Hurricane Fan, Covers All Application Scenarios** **11. Available in two colors** 
Overview	Air outlet Front light (A light) Turbo button Suction port Rear light (B light) Light button Speed control button Indicator Charging port 
Size	126.1×71.4×37mm 
Net Weight	About 327g
Materials In	Aluminum alloy

Main Body									
Operating Temperature Range	0℃~+40℃								
Storage Temperature Range	-20℃~+60℃								
Operating Voltage Range	7.4V~8.4V								
Max Power	171w (Turbo speed)								
Max. Runtime	About 5H								
Charging Input	5V⎓2A, 9V⎓2A								
Charging Time	About 2H(9V⎓2A)								
Battery	7.4V, 4000mAh, 29.6Wh (Built-in battery cannot be removed, charge it via the USB-C port on the handle)								
Button Operation	Light button	Long press: Turn on/off the light Single tap: Switch between A light/B light							
	Speed control button	Sliding the speed control button up will automatically power on the device and increase the revolution speed. Sliding it down will decrease the revolution speed. Slide the speed control button down to the bottom will set the revolution speed to 0.							
	Turbo button	While the device is on, press and hold the turbo button will immediately switch to turbo speed. Release the button will return to the previous revolution speed.							
	! Never block the suction port, air outlet and heat dissipation holes while using or the product might be damaged.								
Rotation	**Gear**	**Revolution speed (RPM)**	**Wind Speed (m/s)**	**Thrust (g)**	**Wind Pressure (Kpa)**	**Airflow (㎥/min)**	**Power (W)**	**Noise (dB)**	**Battery Life (min)**
